

The EU Future Internet Research and Experimentation (FIRE) Activities

Max Lemke
European Commission, Belgium
Max.Lemke@ec.europa.eu

The first wave of projects under the European ICT Programme Objective "New Paradigms and Experimental Facilities", also known under the acronym FIRE - "Future Internet Research and Experimentation", is starting in Spring/Summer 2008. It is planned to give an overview of the activities, the strategy behind, and future plans.
